Open Letter to President Obama

Dear Mr. Obama:

You may think I'm against you personally as you read your name often in this book. I'm not! I admire your nuclear family example of loving husband and father; a great role model for the urban lost. **If you will lead them to follow it**, what a great legacy that alone can be for you and America!

However, on other issues, I must disagree with your economic, political, and moral policies! They are wrong for God and America, and on these items, I pray for you!

You are a product of your past and it shows... the Muslim culture from your formative years, and your associations at liberal Columbia and political Chicago in your adult years. Unfortunately you have surrounded yourself with a staff of the same bent. But I have hope that if you will listen to the **values of the American people**, not just these myopic advisors, you will learn that their socialist and atheist programs are destructive, not helpful, to the future of us all.

If God's grace lets you see the light, you can say to all those special-interest socialist and atheist supporters, *"Sorry, but I want to be known in history as a good President, not the man who brought America down."*

I pray, "Please God, open Barack's eyes to these truths! Then let him be the Christian he says he wants to be."

Foreword

This book, while staged on Obama in 2009 and geared toward 2010 and 2012 elections, is timeless until America is restored to its original design ... a godly nation of freedom and individual responsibility.

“Things have gone too far. We’re sliding down their godless socialist slippery slope. We need these reforms now before we’re morally and financially bankrupt.”

While America has never been perfect, in recent times we have slid so far down the slippery slope of welfare-state atheistic liberalism, as a people and a nation, that patching it won’t do. We’ve added massive public debt, divided for political gain, lost our Christian culture, sunk into deep immorality, dumbed-down to welfare mentality, set goals for things rather than people; and lost our national vision.

We need **total makeover** in three areas ... economic, political, religious ... to restore what was created here.

This book has fifteen reforms in those three areas to set America right. But we are so far down that we can't do it by ourselves. It can only happen with God's help, and all God-fearing Americans will need to pray for that. If so, we can renew America to the economic opportunity, selfless politics, and high-road Christianity we began in 1776.

Each of us as a person and all of us as a nation will need to think positive and act on it. We can't afford another 2009... ever again! Liberals and atheists will oppose it and the renewal may take ten years, but it's worth it.

The following pages are what we must do now. STOP the slide! RENEW America!

Chapter 1

Thanks for Opening Our Eyes!

Barack Hussein Obama has done us all a HUGE favor. After 74 years of gradual liberal slide from his predecessors, his aggressive cramming-down-our-throats of his entire campaign-supporter payback-list has **opened our eyes** to a bleak future of Euro-style poverty and immorality.

- Barack's **spending programs** are leading to absolutely unsustainable public debt. Unless reversed, they will bankrupt our nation as well as each of us personally.
- The **anti-Christian payback** to the ACLU, NAMBLA, Planned Parenthood, ACORN, etc. has sunk America to the **lowest morality** in its history.
- The **welfare state goal** of total personal dependency on government sucks out so much life and initiative that it will be very hard for our children to reverse their sorry state.

No Public Mandate! While it remains improvable, many say people voted for Obama because he's young, speaks well, and is black. Add overwhelming special-interest ad funding and a promise to cut taxes for 95% of us. Who could resist...in spite

of his lack of leadership experience!

Clearly he was **not** elected for his platform... he didn't have one! So as President, he simply adopted the payback list that came with 533 million dollars of splinter-interest campaign funding. Many American citizens were duped into thinking he was centrist, but he's not. The big payback is for Obama lobbyists ... the most radically liberal people in America, plus every anti-Christian, sin-industry, and welfare splinter group our freedoms allow.

It's bad, but we can't blame Barack for all of it.

America has never been perfect. We had racial division and it took the Civil War and Abraham Lincoln -- plus the 1957 Civil Rights Act and Dwight Eisenhower -- to correct it.

For a long time, women were second-class citizens, but after a lot of work and struggle, American women finally earned voting rights along the way.

A significant Socialist Party appeared in the early 1900's, largely supported by the workers in mills, mines, farms, and railways who never had a party of their own before. It's candidate Eugene Debs won almost 6% of the vote in 1912 and 1920. After the 20's, it was overshadowed by FDR's New Deal. While the official party finally shattered in 1972, some adherents are obviously still around.

But we began serious sliding toward welfare-state government when Franklin Roosevelt prolonged the Great Depression with massive "bailout-style" spending, welfare programs, and by raising the top tax rate to 79% ... later to 90%. He begat a

whole new liberal era when he signed Social Security into law in 1935.

Over the next 74 years, we've received ... bit-by-bit ...deficit spending, government explosion, social security theft, urban welfare, separation of church and state, abortion, higher taxes, great society, union favoritism, and homosexual pride to name a few. The slippery slide has been gradual ... slow enough to be accepted by most.

But then came Obama, and his frantic 2009 start clearly shows the future if we do nothing. We never learn! The housing-banking-industrial crash of 2008-2009, just like the 1929-33 Great Depression, was actually **caused by the U.S. federal government**. Consensus: it must be stopped!

We don't need 1776-style revolution! Instead we need a well-thought systematically-legislated return to the America of *personal responsibility, economic freedom, and God's high morals* as our founders established it.
